T-Line

Louver Swing Function

The automatic operation of horizontal blinds significantly improves the air distribution in the room.

Timer

The timer gives you the option to set the time for automatic switching on and off of the air conditioner.

Sleep mode

The unit raises the temperature set in cooling mode (lower in heating mode) by 1°C per hour within two hours and the fan operates at a low speed. This reduces electricity consumption and the air conditioning provides the best comfort for the user.

Auto restart

During a power outage, the air conditioner remembers the last settings and restores them when power is resumed. No need to reprogramme the device every time the power is switched off.

The set includes

Indoor unit
KKPE-12PTA1

Remotecontroller
KWA-HQ

Technical specifications - Portable Air Conditioner KKPE

Model		KKPE-12PTA1	
Capacity	cooling	kW	3,5
	heating	kW	3,2
Energy class	cooling/heating		A/A+
EER	average	W/W	2,6
COP	average		2,8
Power input	cooling	kW	1,3
	heating	kW	1,1
